Total Page Size - 4.84MB

Total Page Requests - 302

How does this affect me?

Modern web users have a short attention span and expect a fast and seamless website experience. Delivering that fast experience can result in more traffic, more conversions, and more happiness.

As if you didn't need more incentive, **Google use Page Speed and Page Experience (including Web Vitals) signals in their ranking algorithm.**

About TheNextLevel

Take your mobile experience to The Next Level. Design and launch your mobile application within a matter of hours using our app studio. Get access to a wide range of tools to help you engage better with customers from intelligent push messaging powered by AI to community builder giving customers the ability to interact with your brand within your mobile app.

The waterfall chart displays the loading behaviour of your site in your selected browser. It can be used to discover simple issues such as 404's or more complex issues such as external resources blocking page rendering.
